## Multimedia Publishing PERMISSION FORM

Dear Parents/Guardians

Little River Primary School strives to connect our students and their learning to the wider world through appropriate use of multimedia. New technologies and applications constantly emerge, and we evaluate their value and purpose. We utilise the World Wide Web, newspapers, brochures, digital photography, informational videos, wikis, e-Portfolios, vodcasts and blogging. The purposes of these are to inform people about our school, to support learning and to showcase the work created by students and staff.

A revised Permission from parents is required if student images are to be used by the school. As part of multimedia activities, we include images of students, classroom and specialist activities, schoolwork, concerts and other performances. Usually these displays will be shown locally at the school and sometimes they are included in local newspapers, posters or placed on the internet to reach the wider community. If required, only first names will be used.

Please sign and return the permission form below as soon as possible. This permission will remain in effect for the years that your child is enrolled at Little River Primary School.

If you wish to change your level of permission for your child at any time, please contact the office for a new permission slip and these changes will be noted on our records. All staff at the school will then be aware of the level of permission that you have or have not granted for using your child's image on the school internet site, newspapers, brochures, digital photography, informational videos, wikis, ePortfolios, vodcasts and blogging.

If you have any questions please feel welcome to contact me.

Regards

Pamela Heane  
Principal
